Your inquiry regarding the rules of origin in the Pan-Euro-Mediterranean region

Dear Sir or Madam,

thank you for your inquiry regarding the rules of origin in the Pan-Euro-Med (PEM) region.

We are pleased to confirm that we apply the provisions of the **revised PEM Convention** to our goods deliveries, which has become the mandatory standard as of **January 1, 2026**.

Below are the key details of the current regulations for your records:

- **Mandatory Application:** As of January 1, 2026, the transition period has ended. The modernized and more flexible "Revised Rules" have replaced the previous transitional rules and the old 2012 Convention for the majority of contracting parties.
- **Documentation:** In origin declarations on invoices, the previous additions such as "Transitional Rules" are no longer required as of 2026. Origin is now certified directly in accordance with the revised Convention.
- **Benefits:** The new rules offer you advantages through simplified origin criteria, such as an increased general tolerance threshold for non-originating materials (from 10% to 15%) and full cumulation for almost all products.
- **Validity:** When issuing proofs of preference, we follow the current PEM Matrix from the EU Commission to ensure correct diagonal cumulation between partner states.

Please note that for trade with a few countries (such as Algeria, Lebanon, or Israel), specific bilateral rules may still apply if they have not yet fully ratified the revised Convention.

For further details, we recommend the official Access2Markets portal for comprehensive information on the revised PEM rules.

In case of any questions, please do not hesitate to contact us.

Kind regards

MEDi Kabel GmbH
